EXPERIENCE

Security Research

April 2026 – Present

Independent Security Researcher | Burp Suite, Caido, Python, Bugcrowd

- Ranked in **Keeper Security's Top 15 Hall of Fame** and earned **\$12,000 in bounties** across resolved findings
- Received public credit in Keeper's release notes for a resolved **device approval bypass**
- Identified stored XSS leading to account takeover in NASA's GLOBE platform, validated as **High (P2)**
- Reported 30+ vulnerabilities across 18 programs on Bugcrowd, HackerOne, and Intigriti; recognized in the SimpliSafe Hall of Fame

Kaimz Inc.

Jan. 2025 – April 2025

Cybersecurity Intern | Wazuh SIEM, Log Analysis, Incident Response

Waterloo, ON

- Reduced manual alert triage time by approximately **35%** by scoring Wazuh events by severity and routing them to the appropriate responder
- Analysed security logs, built detection rules, and mapped coverage to MITRE ATT&CK to identify and prioritise monitoring gaps

Hatchloom Inc.

Software Developer Intern | Node.js, PostgreSQL, AWS EC2

- Delivered a production-ready learning and community platform across desktop, tablet, and mobile
- Built REST APIs for accounts and content, JWT authentication with role-based access, and automated AWS EC2 deployments through CI/CD pipelines

OPEN SOURCE

OWASP ZAP

Jan. 2026 – Present

Contributor | Java, JUnit 5, Gradle

Web Security Scanner

- Merged **three contributions** adding example alerts for LDAP injection, username enumeration, and SQLite injection scan rules
- Added JUnit tests for alert content and references, and extracted reusable alert builders to remove duplicated code

PROJECTS

AI-Assisted Security Research Workflow | Claude Code, Python, MCP

Ongoing

- Built a workflow that drafts reports from a structured evidence ledger and checks for missing validation before submission

Social Engineering AI | Independent Research

April 2026

- Documented how a fabricated security-lab claim changed an AI assistant's responses, with conversation evidence and the limits of the single-session study

EDUCATION & CERTIFICATION

Western University

Sept. 2022 – April 2026

Bachelor of Science in Computer Science

London, ON

- **HTB Certified Web Exploitation Specialist (CWES)**, July 2026
- Two-time Dean's Honour List recipient

TECHNICAL SKILLS

Security Tools: Burp Suite, Caido, OWASP ZAP, Nmap, Wireshark, ffuf, nuclei, sqlmap

Vulnerability Research: Web, API, GraphQL, authentication, access control, injection, RCE, SSRF, XXE, business logic, source-code review, OWASP Top 10, CWE, CVSS 3.1

AI & LLM Security: Claude Code, Codex, MCP, prompt injection, OWASP Top 10 for LLM Applications

Development: Python, Bash, SQL, JavaScript, PHP, Java, C/C++, Node.js, PostgreSQL, Git, Linux
